Software Developer

JavaScript | SAP ABAP

French | Portuguese

I'm Eduardo Schoepf 🙌, and my journey in the world of software development began in 2015. Since then, I've been on a path filled with challenges and achievements that have solidified my passion for the technology field. 🚀 I'm open to new opportunities and I want to discover the world of SAP. I'm looking for a challenge as an SAP ABAP consultant.

WORK EXPERIENCE

📅 **2018 - Present**

IT Support

Public administration, Paris - FR

My current role involves analyzing XML flows and resolving incident tickets, while also contributing to the integration of new colleagues.

📅 **2017 - 2018**

JavaScript Developer

Mobixio, Montpellier - FR

I started my career at a startup in Montpellier, in the south of France, where I was part of a project to develop a multiplatform mobile application with Ionic, Cordova and AngularJS.

📅 **2016 (3 months)**

Software developer internship

O+ Studio, Montpellier - FR

This end-of-studies internship, lasting ten weeks, carried out within the company O plus Studio, punctuated my training as a software developer followed at Objectif 3W. The work done during this internship allowed me to put my training into practice.

Missions and tasks carried out:

- model a MySQL database;
- create a web application in PHP5;
- implement unit tests.

EDUCATION

📅 **2023 - 2027**

Software Engineer

UNINTER (Distance learning Bachelors)

The Software Engineering degree course focuses on the following areas: software development, software project management, architecture, testing and other activities in the software life cycle.

📅 **2023**

Introduction to Computer Science

Harvard University (MOOC)

This program covers concepts like abstraction, algorithms, data structures, encapsulation, resource management, security, software engineering, and web development. An introduction to a number of languages, including C, Python, SQL and JavaScript, as well as CSS and HTML.

📅 **2015 - 2016**

Professional Title of Software Developer (Level 5)

OBJECTIF 3W, Montpellier - FR

Proficient in a diverse range of programming languages, including XML, HTML5, CSS3, JavaScript, jQuery, Ajax, PHP5, SQL, and UML. Skilled in MySQL DBMS, method of analysis and design of MERISE systems, and experienced in object-oriented programming.
